

# Cisco® Administering Cisco® Unified Contact Center Enterprise, Part 1 v10.0 (AUCCE1)

## Course Overview

This is a 5-day class

Administering Cisco Unified Contact Center Enterprise, Part 1 (AUCCE1) is a 5 day instructor-led course presented by training partners to system engineers and customers who will be involved with "Day 2" support of a UCCE solution deployed in a CVP comprehensive environment. This course describes the requirements, resources and tools needed to perform routine adds, moves and changes in the inbound/outbound UCCE environment. This course is intended for those administering the solution, or who may be responsible for Level 1-2 support of the solution.

## Who Should Attend

The target audience for this course is channel partners and field support personnel who are responsible for sales, implementation or administration of a Cisco Unified Contact Center and VRU implementation in customer enterprise networks, specifically individuals filling these roles. Day 1 and Day 2 support personnel.

The secondary audience for this course is as follows:  
Managers overseeing UCCE deployments

## Course Objectives

Upon completing this course, the learner will be able to meet these overall objectives: Identify the basic components and operations of the Unified CCE solution. Configure and script a basic UCCE CVP deployment. Perform the ICM configuration tasks required to support basic agent functionality. Build and test a basic ICM script utilizing microapps. Configure and script UCCE to support reporting requirements, precision queuing and RONA. Deploy the CVP VXML component in a Unified CCE solution successfully. Generate basic reports using Cisco Unified IC
