

Certified Associate in Project Management (CAPM) Course - Sixth Edition

Course Overview

In this course, students will learn to apply project management processes acknowledged by the Project Management Institute, Inc. (PMI)® to successfully plan and execute projects. NOTE: This course will earn you 28 PDUs.

Who Should Attend

This course is for people who have on the job experience doing project management activities and running projects, regardless of their job title. It is for those who wish to become certified project managers, or those that want to build or reinforce a foundation in project management. This course is ideal for a person who wants to grow and formalize their project management skills on an industry neutral, global standard, the Project Management Institute, A Guide to the Project Management Body of Knowledge, (PMBOK Guide) – Sixth Edition, Project Management Institute, Inc. 2017. (This course is ideal for a leader or manager wanting to take their career and salary to the next level in earning the globally recognized CAPM® credential.

Certified Associate in Project Management (CAPM)®, Project Management Institute, Inc. (PMI)®, and PMBOK® Guide are all registered marks of the Project Management Institute, Inc.

Course Objectives

Upon successful completion of this course, students will be able to do the following: Obtain an understanding of how project management affects business, create a charter, identify stakeholders, create a project management plan, create a schedule, create a budget, create a risk register, and create various management plans. They will be able to analyze project risks, address project related procurement, execute the plan, and monitor and control it as needed. They will know how to close the project, including project and contract closeout.

Course Outline

This is a 4-day class
