

AZ-900T00 Microsoft Azure Fundamentals - with Lab

Course Overview

This course will provide foundational level knowledge on cloud concepts; core Azure services; security, privacy, compliance, and trust; and Azure pricing and support. Note: This course provides an Azure pass and time for you to participate in hands-on labs. If you do not need hands-on experience, consider the AZ-900T01: Microsoft Azure Fundamentals (1 day) course. The content for both courses align to the AZ-900 exam objective domain.

Who Should Attend

This course is suitable for IT personnel who are just beginning to work with Azure. This audience wants to learn about our offerings and get hands-on experience with the product. This course primarily uses the Azure portal to create services and does not require scripting skills. You will gain confidence to take other role-based courses and certifications, such as Azure Administrator.

Course Objectives

Please refer to overview.

Other Prerequisites

There are no prerequisites for taking this course. However, the more technical knowledge you have, the more you will understand about the cloud.
